

# BROKERAGE FOR HEALTH

## September 3-4 2018, Oslo

session (edit)

# People like to stay at Home

## Pablo Viñas

[ TECHNOLOGY  
CENTRE ] **CARTIF**

HEALTH-NCP-NET 2.0 project is funded by the European Commission

# Project idea/ Company expertise

People can design and develop their own “Life Project” thanks to the use of new technologies (Robotics, AI, Big Data, IOT, wearables, Digital models and advanced interoperability), aimed to support the personal development.

## Topic

### Possible topic/topics you wish to participate in

- **DT-TDS-01-2019** - Smart and healthy living at home.
- **SC1-DTH-11-2019** Large Scale pilots of personalised & outcome based integrated care
- **SC1-HCC-02-2019**: Support for the large scale uptake of open service platforms in the Active and Healthy Ageing domain

## Sample text

The technological solutions must be oriented to help people to obtain services for cover their needs.

The innovative point of the technological solutions must be orientated to maintain their independence and preserving the essential person's rights, because without them the people use to develop a desire to accelerate the own death.
